SUMMARY

I clean up inventory and order data for online sellers and turn it into reports they can act on. At LYR Motorparts I handle branch stock data across 19,000+ part numbers and 25 locations, so I know how product data breaks in real operations. I use Excel, Google Sheets and Python to automate the repetitive parts. Open to remote VA work.

EXPERIENCE

Assistant Manager
July 2026 – Present

LYR Motorparts Corp. · multi-branch motorcycle parts distributor

- Built one standard month-end workbook covering about 65,000 branch stock lines and 19,000+ part numbers across about 25 locations
- Standardized branch names across inventory, sales and in-transit files (39 spellings mapped to 21 standard names) and matched about 330 groups of duplicate part codes so stock and sales roll up to one row
- Classified stock into overstock, non-moving and depleting items from a year of sales history (about 400,000 sales lines), giving purchasing ranked lists to guide reorders
- Built LYR Workspace solo: a Flask platform with a shared task calendar, order forms, in-transit monitoring, warehouse monitoring and discrepancy tracking, with role-based accounts and an audit trail. Now used company-wide and acknowledged by management
- Replaced a manual process that took about a month with a program that runs in about a minute

PROJECTS

LYR Workspace Flask · Python · MySQL
Internal operations platform, built solo and used company-wide. Private; I can walk through it on a call.

PASA SvelteKit
Review app for the Philippine teacher licensure exam: topic and timed practice, flashcards, error log and weekly plan. Live demo ↗

Milestone React · Vite
Personal finance app with a dated transaction ledger, payday-aware safe-to-spend, bills and savings goals. Live demo ↗

SKILLS

Inventory & order data: SKU cleanup, duplicate detection, stock reporting, order tracking

Spreadsheets: Excel, Google Sheets, formulas, pivot tables, standardized month-end reports

Automation & analysis: Python, pandas, Flask, React, MySQL, GitHub, Jamovi, SPSS

Admin: Product listing data entry, task updates, Google Forms, Canva, Meet, Zoom

EDUCATION

BSEd, Major in Mathematics, Cum Laude · 2026 · University of Southeastern Philippines, Tagum–Mabini
Thesis on program educational objectives of BSEd Mathematics graduates · Action research: Math Quest, a web-based exponents game

Teaching Internship (Practicum) · Jan–Mar 2026 · Tagum City National High School

Field Study (Observation) · Aug–Nov 2025 · Tagum City National High School
